EXPERIENCE

INTERN FRONTEND DEVELOPER

Teknodev - Antalya/Turkey - 17/05/2023 - 20/09/2023

- As a Frontend Development Intern at Teknodev, I gained hands-on experience with React, TypeScript, Git, SCSS, Spica and collaborated on a large-scale project. Actively utilizing GitHub, I honed my skills in agile development, teamwork, and effective communication.

PROJECTS

• Tour Page Project

I created a dynamic web page using React, TypeScript, Router v6, Redux. It includes user login, detailed tour pages, reservation and payment simulation. Ongoing updates focus on improving the user experience.

• Weather App

This project is a weather application built using React, TypeScript, and Vite. It displays the current weather and the weather forecast for the next 4 days. The weather data is obtained from 2 different APIs.

• Portfolio

I have created my own portfolio website using Next.js, Tailwind CSS, and the GitHub REST API to pull all my repositories.
